The AVS Short Courses are an extremely important part of the Society activities. (L to R) William Brunner, Chuck Yarling.

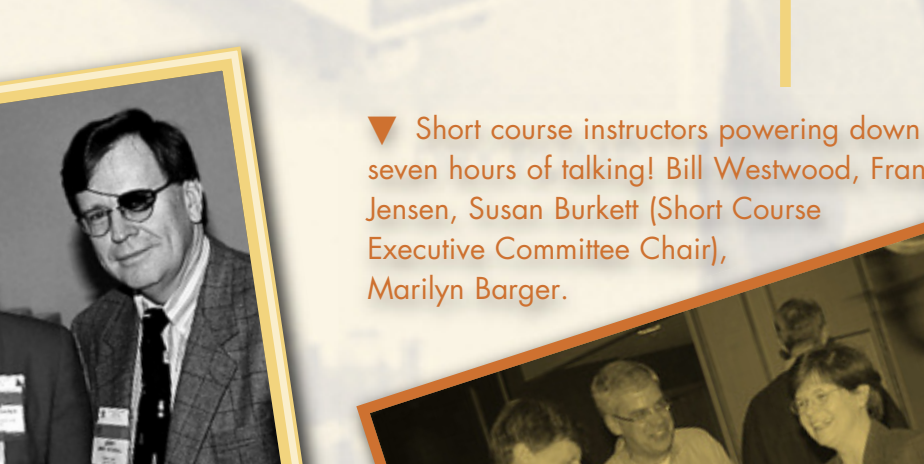

At the 1997 symposium, there was a special session, chaired by Peter Hobson, to commemorate the 100th anniversary of the discovery of the electron. A "Vacuum Tube History Exhibition" was organized by Don Kojane and John Helmer with the Electronics Museum of the Perkin Foundation. This included this 9-foot high, 900-pound Varian Klystron used in an early-warning radar system.

Joseph Greene, AVS Secretary at the Awards Ceremony, at the AVS 45th International Symposium, Baltimore, Maryland, 1998.
